

Course Outline

A+

Duration	2 months
Cost	150,000 NGN

Description:

If you are getting ready for a career as an entry-level information technology (IT) professional or personal computer (PC) service technician, the CompTIA® A+® course is the first step in your preparation. The course will build on your existing user-level knowledge and experience with personal computer software and hardware to present fundamental skills and concepts that you will use on the job.

In this course, you will acquire the essential skills and information you will need to install, upgrade, repair, configure, troubleshoot, optimize, and perform preventative maintenance of basic personal computer hardware and operating systems.

Target Audience:

- Anyone with basic computer skills and is interested in obtaining a job as an entry-level IT Technician.
- Students looking to gain the CompTIA® A+® certification.

Requirements(s):

- Basic computer knowledge.

The course will cover:

- Hardware Fundamentals
- Operating System Fundamentals
- Networking and Security Fundamentals
- Safety and Operational Procedures
- Managing System Components
- Installing and Managing Microsoft Windows
- Implementing Security Controls

- Troubleshooting

Career Prospects:

- PC Technician
- IT Support Personnel
- Hardware Technician
