

Course Outline

Cisco Certified Network Professional (CCNP)

| | |
|-----------------|-------------|
| Duration | 3 months |
| Cost | 200,000 NGN |

Description:

CCNP equips students with the knowledge and skills needed to plan, implement, secure, maintain, and troubleshoot converged enterprise networks. Cisco Certified Network Professional validates the ability to plan, implement, verify and troubleshoot local and wide-area enterprise networks and work collaboratively with specialists on advanced security, voice, wireless and video solutions.

Do you want to be a network professional?

Are you a network engineer who aspire to plan, implement, verify and troubleshoot local and wide-area enterprise networks? The Cisco **CCNP** Routing and Switching certification program provides the education and training required to develop hands-on skills and best-practices.

Your adventure starts here.
